RETAIL SYSTEMS

Merlio.NET is designed to be flexible, scalable, easy to deploy and straightforward to use.

Using the latest Microsoft technologies to drive it means our customers can be reassured of a properly managed development and upgrade plan. Sold in modules, Merlio makes it possible for each new user to tailor the system for their own particular needs without having to purchase lots of functionality that is not required.

Modules

- Sale or Return
- Customer Orders
- Supplier Orders
- Supplier Returns
- Standing Orders
- Multi-site
- Internet Shopping
- Touchscreen
- Merlio Online Search
- PDF Printing and Email
- Gift Card

Who uses Merlio.NET?

Merlio.NET is used by a wide range of retailers including bookshops, stationers, party suppliers, cafés and many other businesses who tend to be a little larger in size, turnover or have extra functionality requirements over our Merlio Express software users.

eCommerce

Complimenting our Merlio.NET software is the Webshop module. This is fully integrated with Merlio.NET, so that everything to do with day to day management of a site can be driven by Merlio, including, images, price, orders notifications and despatch.

System requirements and hardware options

- Merlio.NET is not hardware specific and can be deployed on existing equipment if necessary.
- The Merlio team recommend the use of a touchscreen to maximise the multi-layer screen benefits of the software.
- We will also be pleased to suggest the most appropriate equipment to meet your needs.
- Merlio.NET can be run on Win 7, Win 8, Win 10 and POS ready operating systems.
- Integrated credit card solutions are available with pinpads, stands and peripherals.
